SUMMARY

Full-Stack Web Developer and Bachelor of Science in Information Technology graduate with hands-on experience building web applications using React, Laravel, PHP, and relational databases. Built several full-stack projects, including the **Mt. Pulog Tour Guide Booking & Management System**. Focused on sound system design, security, and maintainable code, and uses AI-assisted tools such as Claude and Codex to speed up implementation and problem-solving.

EDUCATION

Bachelor of Science in Information Technology Graduated 2026
Sorsogon State University (SORSU) – Bulan Campus

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS
Backend: PHP, Laravel, REST APIs
Databases & Cloud: MySQL, PostgreSQL, Vercel, Render
Tools & Workflow: Git/GitHub, VS Code, Figma, Postman, Docker
AI-Assisted Development: Claude, OpenAI Codex, Higgsfield AI

PROJECTS

Mt. Pulog Tour Guide Booking & Management System
Laravel, React, MySQL/PostgreSQL
- Developing a web-based booking and management platform for tour guide services.
- Implementing email notifications, PDF e-certificate generation, and reporting features.

Sorsu Talk – Anonymous Real-Time Chat Platform
React, Laravel, MySQL, WebSockets
- Built a full-stack anonymous chat application with real-time messaging and one-to-one matching.

SoNymous – Anonymous SORSU Wall
React, Laravel, MySQL
- Developed an anonymous campus posting platform organized around SORSU campus communities.

Inventory Management System
Laravel, PHP, MySQL, REST API
- Developed inventory management features and backend REST API services for managing system data.

Library Management System
PHP, MySQL
- Built a web-based library management system with database design for tracking library records.
